REPORT OF COMMITTEE ON TOWN LIBRARY

Book distribution from the Library for the past year has been, fiction, 8,275, non-fiction, 1,175, and magazines, 715, making a total circulation of 10,165.

The greatest number of books taken out in a single day was 123, and for a month 985. The number of new books was 391, of these 124 were gifts.

Roof repairs have been an annual expense for several years and leaks had increased so much the past season, that after careful examination, it was found necessary to reslate the entire western side of the roof to prevent further serious damage.

The interior of the library had also to be redecorated, the woodwork and floor done over and the trimmings outside given a fresh coat of paint.

To those interested in the library branch in North Walpole, we would report that the distribution of books has been 3,294.

Though the attendance is mostly young people, there is a growing demand for more modern adult books. There are over a thousand books on the shelves, but many of these are much out of date. The number of new books bought last year was 94, mostly juvenile.

The committee wishes to thank the many friends of the library for their generous support and kind gifts in money and books.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Walpole:

I herewith submit my first report as Superintendent of schools.

In assuming the duties of superintendent in the Walpole district, I appreciate the efficient work which has been done by Mr. Thompson.

ORGANIZATION AND ENROLLMENT

Changes in the teaching positions were made as follows:

Mr. John Cotton of Ashland was elected as Headmaster of Walpole High School. He is a graduate of the University of New Hampshire and Harvard Graduate School of Education. Mr. Cotton was for seven years Headmaster of Ashland High School.

Mr. John Whittemore, a graduate of the University of New Hampshire, was elected to fill the vacancy caused by the resignation of Mr. Dodge. He was for three years sub-master and teacher of agriculture at Raymond High School.

Miss Dorothy Sewell, a graduate of the University of New Hampshire, was elected to teach languages. She has had two years experience as a high school teacher of languages and is further qualified by a year of graduate study.

Miss Constance Toby is a graduate of the Home Economics department of the University of New Hampshire.

Miss Helen Perkins was granted a leave of absence for one year for study at the University of New Hampshire. Miss Dorothy Chute, Keene Normal 1932, was elected to fill the position in the French department this year.

All of the schools are now well organized. The teachers are loyal, enthusiastic, and cooperative.

Standard tests are being given as a part of the program in supervision. The results of the tests will be tabulated for purposes of comparison. Remedial measures will be provided where deficiencies in fundamentals are apparent.

Milk is being provided each day for 129 pupils in the Walpole schools. Cod liver oil is being administered under the supervision of the school nurse.

A hot dish is provided each day during the winter months to supplement lunches brought from home. The food is prepared by the girls under the supervision of the teacher of Home Economics. Application has been made for a Federal appropriation for this purpose.

BUILDINGS AND EQUIPMENT

Several of the rooms at the North Walpole school and the room at Christian Hollow were refinished during the summer. Repairs on one section of the boiler at the Walpole High School were necessary. Repairs were made on the flag poles at Drewsville and Walpole. Two bowls in the toilets at the Walpole school were replaced. Minor repairs were attended to as the need arose.

I wish to direct your attention to the following supplementary reports:

1. Walpole School Statistical report for 1932-1933.
2. List of Teachers 1933-1934.
3. Report of Headmaster, North Walpole High School.
4. Report of Headmaster, Walpole High School.
5. Report of School Nurse.
6. Report of Supervisor of Music.

I wish to express my appreciation for the cooperation received from members of the School Board, citizens, teachers, and pupils.

Respectfully submitted,

CHARLES D. DALZELL'

Superintendent of Schools.

REPORT OF THE HEADMASTER NORTH WALPOLE HIGH SCHOOL

North Walpole, N. H.
Feb. 10, 1934.

Mr. Charles D. Dalzell,
Superintendent of Schools,
Walpole, N. H.
Dear Sir:

I enclose herewith my report on the condition and work of the North Walpole school.

ENROLLMENT

The distribution of pupils in the various grades is:

Sub-Primary 21; Grade 1, 23; Grade 2, 23; Grade 3, 21; Grade 4, 24; Grade 5, 26; Grade 6, 22; Grade 7, 18; Grade 8, 24; Grade 9, 19; Grade 10, 14. Total, boys 129, girls 106, grand total, 235.

Our teaching force remains the same as in the past two years.

ATTENDANCE

The monthly average for attendance reached a high mark. Tardiness cases are mostly confined to the higher grade pupils. Constant supervision over this condition is required in order

to teach the lesson of punctuality to a small group of laggards. Parents can help out in this matter by seeing to it that their children leave home in ample time to arrive at school for the opening.

We were very fortunate in being able to keep school during the extreme cold weather. The rooms were sufficiently comfortable to conduct classes.

SCHOLARSHIP

A very good index of the standard of scholarship being attained by our pupils can be obtained by their parents through the medium of the six-week report cards sent home by the teachers. From these statements, parents, who are and ought to be most vitally interested in the work being done at the school, can get a good idea of the quality of work their children are doing.

If poor and non-passing marks are noted, it is the right and duty of the parent to find out why the pupil received these marks. Continuous reception of low marks, generally means future non-promotion. A conference with the teacher when the first signs of poor work are seen often improves the work of the pupil. This checkup by the parents should not be put off until the latter part of the school year. It should be done periodically. Sometimes a child is not mentally able to grasp the subject or subjects presented. Repeating the subject or the year frequently brings the development necessary for a sufficient understanding of the work.

In regard to pupils who receive poor marks and apparently are capable of doing better work there are various causes, laziness, lack of interest or childish disregard of the importance of studious work. School and home cooperation can remedy these conditions.

In the main, however, our pupils are meeting the standards creditably. Naturally, there are places where improvement can be made. These indications are apparent to the teachers and provide a challenge to their teaching ability and interest.

Achievement tests have been given in Grades 3, 7, and 8 with good results. They will be continued in the other grades.

HIGH SCHOOL SUBJECTS

The distribution of subjects selected by our High School pupils gives a good idea of the trends of their interests. The number taking the various selective subjects are: Grade 9, Algebra, 10; French, 15; Science, 12; Latin, 2; Grade 10, Geometry, 5; Latin, 4; French, 11; Commercial Geography and Bookkeeping, 14; Grade 8, Latin, 3, optional.

ATHLETICS

Our only organized athletic sports are baseball and basketball. The playing of basketball by the boys and girls of the higher grades was resumed the latter part of January through the kind interest of Rev. Father Farrell. Three sessions a week after school are provided and supervised by Mr. Dube and myself. Great interest and enjoyment is taken in this pastime. It provides a much needed outlet for the youthful energies of the pupils and creates a better school spirit.

DISCIPLINE

Conditions for teaching from the disciplinary standpoint are in most cases satisfactory. In the higher grades we are required to enforce this requirement more than in the other grades.

The age and inclinations of the pupils of the upper grades demand a stricter supervision of their school conduct. In handling this matter we try to instill into the minds of heedless pupils the fact that they are in school to work and not to obstruct the order necessary to the running of a good school.

Respectfully submitted,
JAMES A. RUSSELL,
Headmaster.

The school year 1932-33 marked the fourth consecutive year that the school has been on the state honor roll for excellence in its attendance record. For seven consecutive years a place on the honor roll for low record of tardiness has been maintained. This year we will probably fall short of this high average as bus pupils have been late quite frequently due to the extremely difficult travelling. According to information received from the State Department of Education these pupils must be marked tardy.

SCHOLARSHIP

Walpole High School is maintaining its high standard of scholarship. In the State tests given in the Spring of 1933 we were above the State standard in addition, multiplication, division, and English forms, below only in subtraction. Practice in fundamentals is being undertaken with the idea of keeping them alive and holding our high standard. Teams sent to Keene to compete in the State Scholarship contest scored first place in Algebra and second place in Home Economics.

We are now enrolled with the College Entrance Board under what is called a Specimen Approval. We have two pupils in college upon whose record Walpole High School will be judged. If their work is satisfactory Walpole High School will again be on the permanent list.

Individual differences are being cared for by differentiated assignments and contracts. This allows the slower pupil to cover the required amount of work and the faster pupil to have an enriched course. Opportunity is given pupils who have been absent to make up their work.

The Gilbert Character Cup was awarded this year to Charles Davis.

ORGANIZATION

Our pupil extra-curricula activities this year consisted of the Fair Association, Walpole Warbler, Orchestra, Glee Club, Dramatic Club, Blue and White Club, Outing Club, volley ball, basketball, baseball, horse shoes, cricket, and class organizations.

We have held school socials monthly. The Junior High pupils were invited to the Hallowe'en and Christmas parties.

The Blue and White Club procured our Friday chapel programs. Teachers and pupils together have conducted the Monday chapel programs, some of which have been on etiquette, politeness and customs of our day. We are indebted to many citizens of Walpole for assisting us with these programs.

We received a lovely set of five volumes from Professor Charles T. Copeland. They are a compilation of works that he has read and make a splendid addition to our library.

Another gift, much appreciated, was that of six volumes of Browning's poems.

BUILDINGS AND EQUIPMENT

The teaching staff has emphasized the protection of public property and brought to the attention of the pupils the need of care in the use of the material loaned them.

Our building needs more adequate screening from the flies.

A new sink and drinking fountain were installed in the boys' basement this year and is a big improvement. The stairs still need repairing.

There is a great need of some adjustable desks and chairs in the High School to care for the growth of the children from seventh to twelfth grades.

HOME ECONOMICS

The home economics courses offered to the girls this year are: Textiles and Clothing for freshmen and sophomores and The Home, Its Care and Management for juniors and seniors.

In the course on Textiles and Clothing the girls have studied the kinds of textiles, their properties and uses. In the study of clothing they have learned something of its expense, and have worked out a budget which has taught them to spend more wisely. The relation of clothing to health, to economy, and to social needs has, also, taught the girls to use care and thought in the selection of clothes. The construction of clothing has offered them an opportunity to learn to use a commercial pattern correctly, to alter the pattern, if necessary, and to draft their own patterns. Machine attachments and other aids to efficiency have been used in accomplishing this work. In a unit on mending and remodeling the girls have learned the proper care of clothing and the renovation of garments.

The Home, Its Care and Management offered an op-

portunity for the junior and senior girls to learn something of the history of architecture and the development of the different types of houses now in existence. Through a study of the types of furniture in America and Europe they have been able to select furniture suitable to each type of home. The girls have selected, planned, and furnished homes of their own, at the same time estimating the costs of the materials as they were studied. Following this, the proper care and cleaning of the home were studied. This included scheduling the work and the actual processes involved.

Home projects relating to each unit have been carried out. We appreciate the cooperation from the parents who have made this project work possible.

Hot lunches are being served to the children every noon. The girls in the seventh and eighth grade cooking classes are doing this work under the supervision of the high school girls.

The seventh and eighth grades have learned the methods of canning fruits and vegetables and of making jellies. This work was exhibited at the annual school fair. Through actual experience the girls have learned to prepare and serve well balanced and attractive breakfasts, luncheons and dinners. In relation to this work attention has been given to buying economically; also, to table etiquette, table setting, cost of meals served, and the relation of cleanliness and food to health.

AGRICULTURE

Twenty-five boys are enrolled in the agricultural courses this year. This is the largest total enrollment since 1930. Of this number ten are freshmen.

For the sixth consecutive year 5,000 white pine transplants, furnished by the State Forestry Department, were set out on the Hooper estate. Some of the boys in agriculture will have an opportunity to set out white pine transplants on their home farms.

The young orchard at the Hooper School has made steady growth and looks promising. A power sprayer is badly needed

to replace the worn and inadequate hand sprayer. Great care was taken this fall in removing all drop apples from the old orchard in an effort to check disease spread and improve the quality of fruit.

Twelve members of the combined classes visited the Eastern States Exposition at Springfield, Massachusetts. Part of the time was spent in a tour of the agricultural exhibits and inspecting dairy and beef cattle. This trip was highly instructive and enjoyable.

The annual Agricultural Fair was held October 6th in the Town Hall. This was entirely a student function and well carried out. The interest and cooperation given us by many of the townspeople and by Mr. Buss of Alstead was much appreciated.

Twenty-one of our agricultural boys were entertained by the University of New Hampshire during the annual Inter-scholastic Judging Contest held there on November 11th. Walpole High School placed second in competition with fifteen schools. Teams competed in judging dairy cattle, poultry, livestock, fruit, wood identification and wood chopping contest.

Several farmers have given us fine cooperation in allowing the agricultural classes to visit their farms for poultry and cattle judging and other agricultural work.

Class work has consisted of farm jobs in housing, judging, culling, selection of breeders and diseases of poultry; care and feeding of dairy calves; identification and judging of fruit, sheep and beef cattle. Selection and marketing of eggs was taken up in connection with the work of selecting eggs to exhibit at the annual Egg and Chick Show conducted by the N. H. Poultry Growers Association. Nine of the boys exhibited eggs selected from their poultry projects. Five prizes including one sweepstake ribbon were won.

Some very fine animal and poultry projects are being carried on and plans indicate several good garden and fruit projects this Spring and Summer. Every boy is required to carry

on a suitable project in connection with class work in agriculture.

Shop work this winter will be conducted on a practical farm basis. The freshmen boys are engaged in wood work, sophomores in forging and other iron work, and the juniors and seniors in tin-smithing and care and repair of farm machinery.

At the annual meeting of the State Association of Future Farmers of America Walpole was honored in having Edward Rock elected State President and Alexander Bain, State Reporter.

The teaching staff wish me to extend to you and the citizens of Walpole their sincere thanks for the cooperation received.

Respectfully submitted,

JOHN M. COTTON,

Headmaster, Walpole High School.

REPORT OF SUPERVISOR OF MUSIC

Mr. Charles D. Dalzell,
Superintendent of Schools,

Dear Sir:

I herewith submit my third annual report to the town of Walpole.

The schedule this year calls for one day in Walpole and one day in North Walpole. In grades I to VI inclusive, thirty minutes is spent with each grade. In the Junior High schools forty minutes is given to each grade. North Walpole has a chorus class in Grade VIII and also in the High School. Walpole High School divides the forty minute period between the Boys' Glee Club and the Girls' Glee Club.

The Girls' Glee Club in Walpole is working on the cantata, "The Garden of Flowers" by Denza, which will be presented late in the spring.

In Walpole we have an orchestra to which we have added four new members, the double quartette and the girls sextette, which is a new organization this year.

It has been impossible to organize an orchestra in North Walpole because of the lack of instruments. In Grade VII a harmonica band is being developed. The pupils have shown a great deal of interest and have made rapid progress.

In the Junior High School in North Walpole a sextette has been organized. They have visited Walpole to sing to the Junior High School. A sextette from the Walpole Junior High School expects to return the visit soon.

I, as the supervisor of music, wish to thank the superintendent, the headmasters and the teachers of the schools for their splendid help and cooperation.

Respectfully submitted,

ALICE W. CURRIER.

REPORT OF SCHOOL NURSE

Mr. C. D. Dalzell,
